

Thank you for choosing to decorate with Press Print Party! I am delighted to be able to offer you an easy and affordable way to host an elegant and fun party.

Please read this page as it contains very important information about this set.

Scoring

Scoring is the act of creating a line or depression in the paper that will help the paper fold. As paper gets heavier it is increasingly harder to fold. Therefore you must score the paper before folding and sometimes before even cutting out the item. Here's a good article on how to score: http://www.ehow.com/how_5876881_score-cardstock.html

Printing

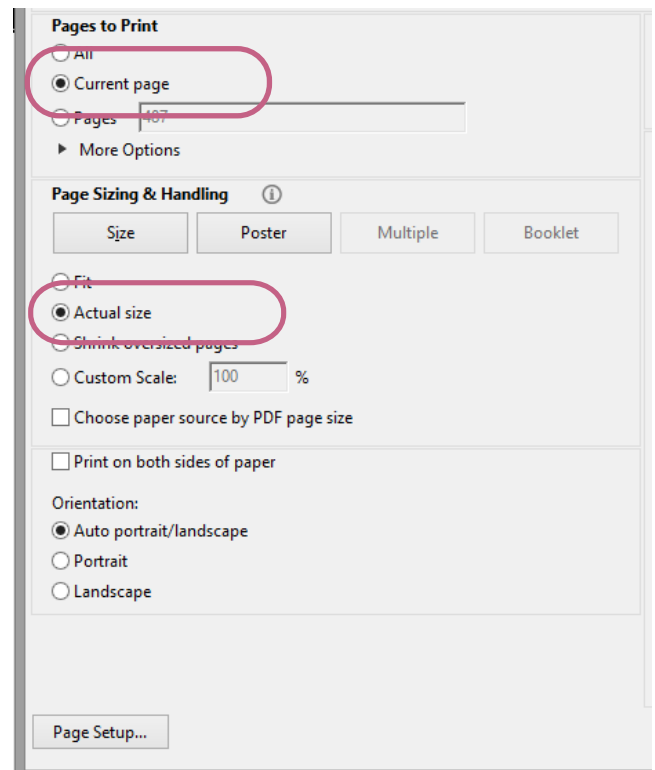

- * Experiment with your printer's print quality. You should get good results printing at Standard Quality. But you may want to print at the highest quality available for your printer.
- * Set your **Page Sizing to Actual s** in the Printer's dialog box. You may get an error message. Just ignore it.
- * Since this pdf contains many pages make sure you set your print options to print: **Current page**.
- * If you are having trouble with parts of the design (not the instructions) not printing around the edges, it means your printer has wide margins. Just adjust the print setting to fit to paper. This is not recommended for cards.

Cupcake Wrappers

Instructions

1. Print the page on cardstock or good quality white paper.
2. Cut the outline of the wrapper using scalloped edged scissors for the top (long side) if desired.
3. Cut the slit with an X-acto® knife.
4. Insert the flap in the slit making sure the flap ends up on the inside.
